

Software Engineer

Company:

Movendo Technology (www.movendo.technology) is a young innovative medical company focusing on the design and production of cutting-edge robotic technologies for physical rehabilitation. Movendo is a spin-off of the Italian Institute of Technology (www.iit.it), a research center leader in robotics, neuroscience, nanotechnology, renewable energies, graphene, and computation.

Movendo Technology has been funded by Sergio Dompé president of Dompé farmaceutici Spa, a leading Bio-Pharmaceutical company.

Role:

We are looking for bright and highly motivated engineers to join our R&D team to develop new products and devices in fast growing rehabilitation market.

We are looking to appoint enthusiastic and outstanding Software Engineers with proven experience in OO programming and particularly with C and C++ as well as python languages. The successful candidates will be part of an interdisciplinary team (consisting of experts in engineering, robotics and medicine) that develops software in the area of devices and technologies for rehabilitation, physical therapy and medical fitness.

The successful candidate should have:

- An excellent first degree in computer science or engineering/related areas;
- From 1 to 3 years of proven extensive programming experience;
- Proven development experience using C, C++, using an OOP approach both under Windows and/or Linux;
- Knowledge of Python scripting;
- Knowledge of version control software (svn, git or equivalent) will be an advantage
- Ability in analysis and solution of logical problems
- Good communication skills and ability/willingness to integrate within a multidisciplinary international research group
- A good knowledge of English will be useful but an ability to learn is acceptable

Workplace: Genova

A competitive salary, dependent on experience, will be offered.

Application procedure:

Interested applicants should submit in electronic form their CV outlining experience and qualifications, and a statement of interests and plans to career@movendo.technology, stating "SW ENGINEER" in the subject of the e-mail.
