## Software Engineer Position

### COMPANY

Movendo Technology s.r.l (www.movendo.technology) is an innovative biomedical company based in Italy (Genoa), with two other subsidiaries in Munich (Germany) and Boston (United States). Born in 2016 as a spin-off from the Italian Institute of Technology (www.iit.it), it is participated by Sergio Dompé, Simone Ungaro and IIT - Istituto Italiano di Tecnologia. It has been funded by the Dompé Farmaceutici group, one of the main Italian biopharmaceutical companies which invested fifteen million euros to innovate clinical applications and continuously develop new rehabilitation technologies. The mission of Movendo Technology is to design, create and implement solutions in the biomedical field using highly innovative technologies with the goal of improving, structuring, and simplifying the processes of clinical and scientific activities in healthcare.

### SOFTWARE DEVELOPER POSITION

We are looking for highly motivated software engineers to join our R&D team and help us improve the software powering hunova, our advanced robotic platform for physical rehabilitation. The selected candidates will be part of an interdisciplinary team (consisting of experts in engineering, robotics, and medicine) that aims to bring a new generation of technology to the healthcare market.

### THE SKILLS WE ARE LOOKING FOR ARE:

The successful candidates should have:

#### Essential Requirements

1. A degree in computer science or engineering/related areas.
2. At least 3 years of proven programming experience.
3. Proven development experience using C, C++ in a Linux environment.
4. Experience in GUI development (Qt/QML preferred)
5. Good problem-solving skills.
6. Ability to work effectively autonomously and in a team environment.
7. A good knowledge of English will be useful but an ability to learn is acceptable.

#### Additional Skills

Knowledge and experience in one or more of the following areas will be a plus:

- Experience in software development for embedded systems.
- Knowledge of Python, Javascript and web technologies.
- Knowledge in Machine Learning and biomedical data analysis.
- Knowledge of control algorithms and technologies for robotic systems.

Workplace: Genova, Area Porto Antico

A competitive salary, dependent on experience, will be offered.

#### APPLICATION PROCEDURE

Interested applicants should submit in electronic form their CV outlining experience and qualifications, and a statement of interests and plans to career@movendo.technology, stating “SW DEV” in the subject of the e-mail.

In order to comply with the Italian law (art. 23 of Privacy Law of the Italian Legislative Decree n. 196/03), we have to kindly ask the candidate to give his/her consent to allow Movendo Technology to process his/her personal data. We inform you that the information you provide will be used solely for the purpose of assessing your professional profile to meet the requirements of Movendo Technology. Your data will be processed by Movendo Technology, with headquarters in Genoa, Calata Cattaneo, 15 - Italy, acting as the Data Holder, using computer and paper based means, observing the rules on protection of personal data, including those relating to the security of data. Please also note that, pursuant to art.7 of Legislative Decree 196/2003, you may exercise your rights at any time as a party concerned by contacting the Data Manager. Movendo Technology is an Equal Opportunity Employer that actively seeks diversity in the workforce.
