Clinical application and product  
development specialist

## COMPANY

Movendo Technology s.r.l (www.movendo.technology) is an innovative biomedical company based in Italy (Genoa), with two other subsidiaries in Munich (Germany) and Boston (United States). Born in 2016 as a spin-off from the Italian Institute of Technology (www.iit.it), it is participated by Sergio Dompé, Simone Ungaro and IIT - Istituto Italiano di Tecnologia. It has been funded by the Dompé Farmaceutici group, one of the main Italian biopharmaceutical companies which invested fifteen million euros to innovate clinical applications and continuously develop new rehabilitation technologies. The mission of Movendo Technology is to design, create and implement solutions in the biomedical field using highly innovative technologies with the goal of improving, structuring, and simplifying the processes of clinical and scientific activities in healthcare.

## CLINICAL APPLICATION AND PRODUCT DEVELOPMENT SPECIALIST

We are looking for highly motivated clinical application and product development specialist to join our Clinical and Product Development team. He will

- Support the Product Team in the activities related to products' development, validation and testing.
- Update, maintain and develop appropriate product documentation.
- Maintain the relationship with current clinical partners and ensure their on-going clinical contribution to the brand.
- Support clinical partners and customers in the field of clinical applications, also in terms of clinical studies (dissemination and data analysis).
- Support the team in specific training related to new features (internal training) or in preparation of clinical/scientific activities
- Collect feedback from the market in order to improve products and identify new product needs and requirements/ specs.
- Support the customer care team regarding application and clinical questions.

## THE SKILLS WE ARE LOOKING FOR ARE:

The successful candidates should have:

### Essential Requirements

- have a University degree in bio-medical engineering;
- have a good knowledge of English, other language skills are an asset;
- are excellent users of Power point, word, excel;
- are flexible to travel in Italy, Europe and US;

- are open for new technologies in the field of rehabilitation,
- enjoy giving presentations,
- are able to communicate adequately with physiotherapists and doctors,
- are very flexible and excellent organizer of time and tasks, used to work independently, great communication; self-motivated; quick learner and hard worker.

Previous experiences in the rehabilitative domain and in data analysis would be considered an asset.

Workplace: Genova, Area Porto Antico

A competitive salary, dependent on experience, will be offered.

#### APPLICATION PROCEDURE

Interested applicants should submit in electronic form their CV outlining experience and qualifications, and a statement of interests and plans to career@movendo.technology, stating “CLINICAL SP.” in the subject of the e-mail.

In order to comply with the Italian law (art. 23 of Privacy Law of the Italian Legislative Decree n. 196/03), we have to kindly ask the candidate to give his/her consent to allow Movendo Technology to process his/her personal data. We inform you that the information you provide will be used solely for the purpose of assessing your professional profile to meet the requirements of Movendo Technology. Your data will be processed by Movendo Technology, with headquarters in Genoa, Calata Cattaneo, 15 - Italy, acting as the Data Holder, using computer and paper based means, observing the rules on protection of personal data, including those relating to the security of data. Please also note that, pursuant to art.7 of Legislative Decree 196/2003, you may exercise your rights at any time as a party concerned by contacting the Data Manager. Movendo Technology is an Equal Opportunity Employer that actively seeks diversity in the workforce.
